RUMAR

TECHNICAL RIDER 2027 | Around the World in 80 Minutes

ARTIST	FORMAT	DURATION
RUMAR - Rui Martins	**Solo live performance**	**Approx. 80 minutes**

PERFORMANCE SETUP

The performance combines **Portuguese guitar, sitar, laptop / audio interface, ambient electronic textures and small percussion**. Additional acoustic instruments may be selected according to the programme and will be confirmed during the technical advance.

AUDIO REQUIREMENTS

01	**4 professional DI boxes** with ground lift, for the artist's instrument and laptop outputs.
02	**1 dynamic cardioid / directional microphone** with boom stand.
03	**1 condenser microphone** with boom stand and phantom power.
04	**1 floor monitor** positioned in front of the artist, with an independent monitor mix.
05	A professional **PA system and FOH mixing console** appropriate to the venue, with clear and even coverage.
06	Safe, stable **230 V power** available at the performance position for the laptop and audio equipment.

STAGE & TECHNICAL ADVANCE

Please provide a clean, stable performance area with adequate space for the instruments and laptop setup. The final channel allocation, stage positioning and any programme-specific instrument changes should be confirmed with the artist before the event.
